

LDTTC Workshop 3

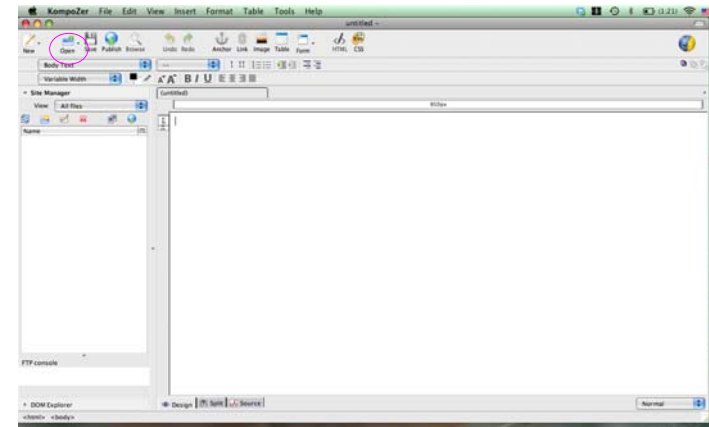

Web Design II: Beyond the Basics

Playing with KompoZer

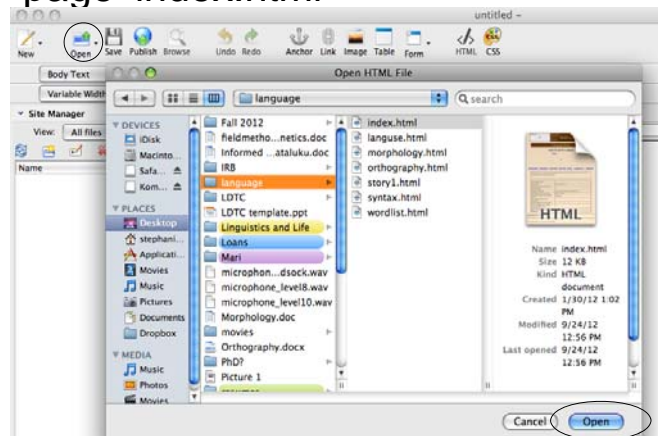

- Step 1: Open KompoZer
- Step 2: Select the "Open" Icon

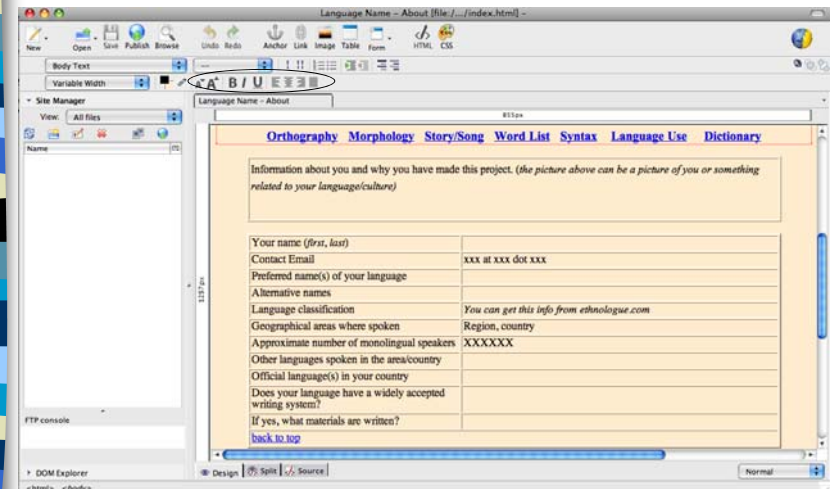

Opening web templates

- Find (within your language folder) the page 'index.html'

Formatting your text

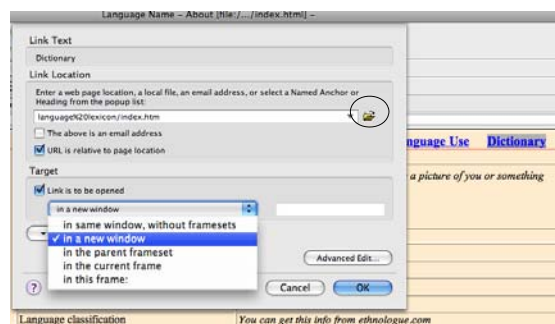

Formatting your text

- Just like Word
 - **Bold**, *italicized*, underlined
 - Left, right and center justified
 - Indentation
- You can copy and paste information inside KompoZer as well

Creating a link

- Important to connect one page to another within your website
- Can also connect outside websites to your website

Creating a link

Adding a picture

- Add pictures of yourself and photos that illustrate your culture and community
- Include photos on your home page
 - And you can include more photos on other pages

Today's activity

- Edit your “index” template, which will be your home page
 - Fill out “About me” and “Background of the language” sections
 - Include information from week 1 in table on home page
 - Create links to other websites about your language

Today's Activity

- Complete “language” template
 - Fill out questions about your language use
- Add photos!

Wrap-up

- Questions or Comments?
- Next Week - Sound Systems and Writing Systems
- Thank you!
